EXPERIMENT-2

Create a simple cloud software application for Flight Reservation System using any Cloud Service Provider to demonstrate SaaS

STEPS:

The screenshot displays a form builder interface. On the left, there is a sidebar with various field types: Time, Drop Down, Radio, Multi Select, Checkbox, Decision box, Rich Text, Url, and Image. The main area shows a preview of a form with fields for Name, Email, Phone, Enter your Destination, Enter Dispart, and a Radio button. On the right, there is a 'Field Properties' panel with options for Field name, Field link name, and View Field References. Below this, there is a 'Choices' section with a list of radio buttons: Choice 1, Elite, Business (selected), and Economy.

The screenshot shows a flight reservation application. The top navigation bar includes 'Flight Reservation', 'Design', 'Workflow', 'Settings', 'Upgrade', and 'Access this application'. The main content area displays a 'Add Review' form. The form includes a sidebar menu with 'Flights', 'paymentr', 'Customer Satisfaction', 'Add Review', and 'All Reviews'. The 'Add Review' form has fields for Name, Phone Number, Email, and a question 'Would you like to remain anonymous?' with radio buttons for 'No' and 'Yes'. There is also a section for 'How are you satisfied with our product/service?' with radio buttons for 'Very Satisfied', 'Satisfied', 'Neutral', 'Unsatisfied', and 'Very Unsatisfied'. The bottom right corner shows a 'Form Customization - Web' panel with 'Label placement' options.
